

# “Practice Points”

## Learning Scenarios

### Neglect

**To be used in Team/Group Sessions/Supervision  
As a 15-minute discussion point.**

The BHSCP Learning & Development subcommittee invite you, in team meetings or during group supervision, up to four times a year to discuss a child safeguarding issue.

We encourage responses to be included in your team minutes and forwarded to the safeguarding lead within your organisation.

We hope that this is a way in which frontline staff across the city can explore some areas of learning without the need to attend formal training. It should also highlight areas of further learning.

We are happy to help with access to relevant learning materials

Consider the following question and discuss.....

**A child aged 12yrs in your care is always late for the start of the day, having had to take their siblings to school; they also mention that they are hungry. On a recent home visit, re the poor attendance, the house was in poor condition and smelt of urine.**

**What would or could you do to assist this young person and or his family?**
